

NICOLA WEALTH

The Pool

Nicola High Yield Bond Fund's primary objective is to provide unit-holders with a high level of interest income with a secondary emphasis on capital preservation and appreciation by investing in non-investment-grade fixed income securities. A U.S. dollar series of this fund is also available.

The Strategy

The fund primarily invests in higher yielding bonds, debentures, and convertible debentures issued by Canadian, U.S. and foreign governments and corporations denominated in Canadian dollars and/or foreign currencies. The underlying investments may use a long/short strategy and derivatives such as options, futures, forward contracts, swaps and other similar instruments for hedging and non-hedging purposes. Diversification of the fund is enhanced by utilizing funds and managers of different investment styles.

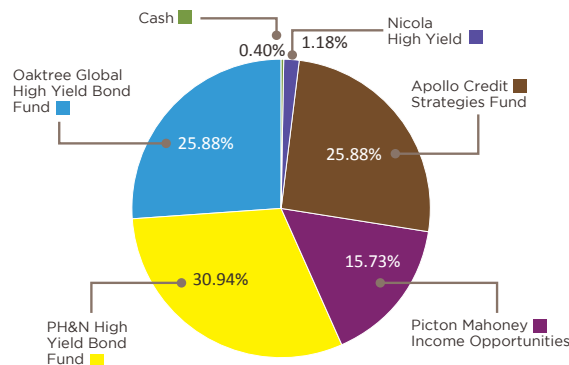

The Manager

Nicola Wealth, the "Fund Manager," is a wealth management and planning firm established in 1994. With a philosophy built on cash flow and diversification, our growing series of funds is managed by members of Nicola Wealth's Portfolio Management Team.
